Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Election/Restrictions

Claims 46, 65, 75 are amended.

Claims 91-110 are newly added.

Claims 46-77, 91-110 are pending.

The amended and newly added claims are directed to the following patentably distinct species:

I) Claims 46-64: direct to a method of forming a thin plate comprising the steps of loading/unloading the substrate between subsidiary chamber and the main chamber, and using a vacuum to set the pressure in the chamber.

II) Claims 65-74, 91-109: direct to a method of forming a thin plate comprising the dipping mechanism, and the dipping mechanism comprises first transport means for transporting the substrate in a direction for dipping and unloading the substrate into and from the melt, second substrate transport means enabling transportation of the substrate in a second direction different from the first direction and substrate rotation means capable of rotating the substrate by 360 degrees.

III) Claims 75-77, 110: direct to a method of forming a thin plate by arranging a plurality of dipping mechanism with respect to a crucible wherein the plurality of dipping mechanism utilize a common crucible for dipping and are spaced apart and independent from one another so as to not necessarily move in conjunction with one another.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, none claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thao P. Le whose telephone number is 571-272-1785. The examiner can normally be reached on M-F (10-8).
